

June 2009

Dear Parents,

The Outreach Committee is initiating one last drive of the year, this time locally. The Committee has decided to help The Toronto Foundation for Student Success. They are a local organization through the TDSB which assists schools in Toronto with breakfast, lunch and snack programs for students who cannot afford to have these fundamentals.

Brown School students want to outfit a junior school in the Toronto district with apple snacks, each day for a whole year. Please send in a ziplock bag of change – any little bit helps – to make change for students in our city who can't afford a snack at recess.

Being hungry at school means poor grades, low concentration and a higher rate of bullying. Knowing how generous Brown families are, the students believe that this can be done. Please “bring change to make a change”, from June 15-19, and help the students make this last fundraiser a huge success!

For more information , please visit www.studentsuccess.ca.

Thank you for helping us with this last outreach project of the year. For only .10 cents an apple, we can make a HUGE difference next year in the lives of other young students in Toronto.

The Outreach Committee.
